HYSTERIA

This is more likely to be seen in children under going treatment. Fear of being harmed, not understanding why they must go through their ordeal, suspicious of everyone and everything, etc. It is an emotional state which actually is the body's way of protecting itself.

REMEDIES MOST INDICATED

IGNATIA 30C

Single dose

Symptoms include: Contradictory and alternating states: laughing to crying; emotions come out spasmodically and are quickly controlled; sighing; twitching of mouth; perspiration on face; averse to consolation; worse being touched; impulse to constantly swallow; sensitive to tobacco smoke; patient tries to eat their way out of stress; pains in small spots; aversion to fruit; do not want open air.

HYOSCYAMUS 30C

Single dose

Symptoms include: Child attempts to run away, mania, rips clothes off; kicks, screams; or is silent, in a deep stupor, just sits and stares, mutters to himself; picks at fingers, face, lips, clothes; epilepsy from fright. Thinks he will be poisoned.

NATRIUM MURIATICUM 30C

Single dose

Symptoms include: Jaws clenched; from emotional cause such as fear, grief, anger; wants to be left alone; unable to weep, or alternately cannot stop weeping; consolation is intolerable, flies into a rage or tears at attempts of comfort; defensive; very thirsty for cold drinks; worse in the sun; mood better after perspiring; hammering headaches over eyes; dwells on issues long past; may crave salty food.

STRAMMONIUM 30C

Single dose

Symptoms include: violence, fears or convulsions; terrified of the dark, water, animals, when alone, closed places, tunnels; awakes in fear or screaming, does not remember night terrors the next morning; ailments from fright, strange places; stammering; maniacal strength; red face rapidly changing to pale.

HYSTERIA

Fear as soon as entering hospital. Kicks, hits, bites from terror, child goes wild; clings to mother.

ASAFOETIDA 30C

Single dose

Symptoms include: Hysteria, especially if combined with intestinal problems; possible convulsions ;from hysteria; sensation of a bubble or lump in the stomach rising up into the throat; reverse peristalsis; constriction in throat or chest; numbness in the face.

THERIDJON 30C

Single dose

Symptoms include: Hysteria and anxiety; marked over-sensitivity to noise (causes pains, toothache, etc.); combined sensitivity to noise and vertigo; hysterical palpitations; hysteria and neuralgic pains; craves oranges or bananas.
