FOREWORD

Homoeopathic Pharmacy has remained a neglected subject of study and research as compared to the developments in other areas like Provings, Repertories, Computer Software, newer ideas on miasms and kingdoms, etc.

So, it is a welcome sign that a young and upcoming homoeopath like Dr. Sumit Goel has taken keen interest in this subject.

This book is well presented and relies on the original sources like Hahnemann and the Pharmacopoeia and covers every aspect of the subject starting from the sources to the dispensing of the medicines. He has also included a chapter on the methodology of provings according to Hahnemann. This has undergone modifications in the modern times, but there is need to standardize the procedure as far as possible.

All in all, the book is very thorough, well researched and well written.

I recommend the book to all serious students of Homoeopathy and Homoeopathic Pharmacy, with the wish that more and more sincere homoeopaths will be enthused to take interest in this vital area of our beloved science.

Dr. Rajan Sankaran
Mumbai, India
Sumit Goel
**Art and Science of Homoeopathic Pharmacy (with CD)**

526 pages, hb
publication 2007
