PREFACE

The long-felt want for useful therapy on skin and bone diseases in a style as to grasp only the guiding symptoms to prescribe easily and promptly, thus saving physicians, or readers unnecessary botheration, I have taken pains to make away with, having cited at places cases cured, particularly of bone diseases which are not successfully treated in Allopathy.

The therapeutic hints on skin affections have a **special feature**, the headings having been divided into 4 chapters—dry **itch, dry eruptions, moist eruptions and pustular eruptions** in such an abridged and eligible way that physicians' purpose may be served to prescribe suitably.

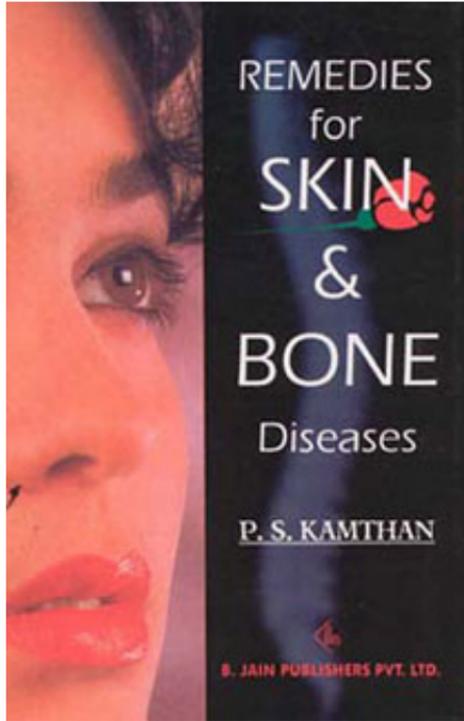

The book is expected to be **nothing short of** on skin and bone diseases, and to prove first of its kind as an useful contribution to the homoeopathic literature.

The spirit of making contributions to the homoeopathic library, infused in me, constantly reminds me of the days of adversity when my wife (Shila Devi) a victim of T. B. bone, recovered after 18 months, strenuous efforts through Master Hahnemann's unique science of homoeopathy. None can put away the victim and the victor from my memory so long I live.

Mainpuri, U. P.
